About

There are endless benefits to yoga and this 12 week course is an opportunity for students to stretch, laugh, be mindful, be dedicated, exercise, meditate, to notice, to let go, to connect. Yoga is a lifelong journey inward and what an amazing opportunity to begin this practice at a young age! In this class, Kelley Friedman, certified yoga teacher and teacher at Mason Prep, will lead the students in learning creative yoga sequences, guided meditations and inspirational lessons that align with the principles of the practice of yoga. This class will provide students a way to let go of the stress of their day and connect to the importance of health, wellness and mindfulness in a fun way! It is a judgement free zone where no previous yoga experience is necessary!
