BRICKS 4 KIDZ AT MASON PREP

Bricks 4 Kidz is a STEAM enrichment program that uses LEGO® Bricks and Introductory Robotics materials. Our programs create an interactive and dynamic environment where children learn, build, and play together under the direction of our Master Builders (Instructors) and have a blast in the process! Join us at Mason Prep for TONS OF FUN!

Bricks 4 Kidz: STEAM Explorers- We'll master our B4K project kits and motorized materials as we explore various types of movement & motion, and embark on exciting and challenging building adventures! We'll experience movement in action, and learn all about the way things work as we become experts at our craft and attain Master Builder status!

Each day of class features a STEAM-powered **Bricks 4 Kidz** model of the day, creative challenges, teamwork & collaboration, and LEGO® Free Play time. Plenty of alternate options and challenges available for our advanced/returning builders.

All students bring home a custom mini-figure from our Mini-Figure Factory (last day of program) & any Arts & Crafts (day of completion). Students do not take home B4K models, kits, motors, or batteries.

B4K Class Info

Sept 5th – Nov 21st (Thursdays)
