Chess is a fun and rewarding strategy game for all skill levels. Learning chess and playing regularly has shown to increase creativity, critical thinking, foresight, focus, and memory. Join Mr. Dutton every Tuesday afternoon as we learn some skills and play some games.

Mr. Dutton is the faculty sponsor for the activity and is responsible for management of the activity. Student will also be asked to bring snacks at least one meeting depending upon the numbers.

****Unless picked up by a parent, your student will go to Extended Day after chess.**
